

**HD Multimedia Player****Device description**

**PX376 is a multimedia player controlled by DMX protocol**

The player allows you to play the video files in Full HD, audio files and images. In case of the loss of DMX signal, it can operate independently according to the pre-programmed settings. The device is equipped with DMX input and output, 4 USB ports, HDMI and Micro USB interfaces.

The device comes with a PC application which allows you to create configuration and prepare USB memory on which media files are stored.

You can also upload and download configurations and multimedia files via a network. The connection is protected with a password. It is also possible to reset the device in a remote mode.

A micro USB interface is used to supply power to the device (through the power supply unit included with the device). Connect a properly formatted USB memory, containing a configuration file and the files to be played, to one of the USB ports.

**Technical data**

Type:	PX376
Control:	DMX-512 protocol, UDP
Optical isolation of DMX line:	yes
Supported file formats:	mkv, avi, mpeg, mp4, ogg, wmv, mpg, mp3, jpg, jpeg, png
Number of supported files:	85
Image quality:	Full HD (1920x1080p)
Power supply:	5V DC (power supply unit included)
Power consumption:	10W
Max. current consumption:	2A
HDMI output:	yes
Ethernet connector type:	10/100BaseTX as standard
USB ports:	4
DMX input/output:	two 3-pin XLR slots
Housing:	metal
Weight:	0,46 kg
Dimensions:	width: 86,1 mm height: 42 mm depth: 140 mm
